8	1,718	2,290	2,577	3,006	3,435	8	859	1,145	1,288	1,503	1,718

The amount in the column is the maximum amount of income appropriate for this level.

Example: household size is 1 Annual income is \$12,000 This is less than \$12,880 so the sliding fee would be minimum.

If the income amount exceeds that in the 70% column this person does not qualify for a sliding fee and is charged 100%.

Example: household size is 1 Annual income is \$26,000 No sliding fee is applied.

For households with more than 8 persons add \$4,540 for each additional person
